# Well Status Definitions

Active

Planned/Under Construction

Inactive/Not Plugged/Abandoned

Plugged and Approved By Regulator

Plugged and Abandoned Without Approval

“Abandoned well” means a well whose use has been permanently discontinued or which is in a state of disrepair such that it cannot be used for its intended purpose or for observation purposes.

“Plugging” means the act or process of stopping the flow of water, oil or gas into or out of a formation through a borehole or well penetrating that formation.

## CONFIRMATION

Thank you for modifying your Well Inventory.

If you:

- Added new or modified existing drywells — ADEQ will review to determine if a Type 2.01 and/or 2.04 General Permit is also required. If so, ADEQ will email you with next steps to apply.
- Are requesting to terminate a Type 2.01 and/or 2.04 General Permit — ADEQ will review your request and notify you by email with your termination confirmation or next steps, if additional information is needed.

NOTE: Please navigate to the EPA website: [link](#) to register the drywell information.
